The Must-Haves

Nine stories slidekit had to deliver

The Nine

01 Provable layout from font metrics

02 Declarative authoring, no geometry

03 One command to PowerPoint and PDF

04 A linter that blocks broken slides

Must

Ship it or the product has no point.

9

Must-have stories

All nine delivered across three sprints

US-14 · Metric-Safe Fonts

Safe fonts

0.076%

Max drift

2%

Hard gate

US-02 · Declarative Authoring

A slide is a component plus content

No author ever positions a box

The engine resolves every rect

Font metrics decide, not guesses

US-01 · Start From Valid

Scaffold

One command

On theme

Real palette

Clean

Builds green

US-03 · One Command

01 Resolve

Geometry from metrics

02 Lint

Block any defect

03 Emit

Write the .pptx

US-12 · Nothing Broken Ships

Overflow

Text outgrew its box

Overlap

Two nodes collide

Margin

Content off the edge

US-04 · Repair From JSON

01

Build

Exit non-zero

02
