MS in Software Engineering

Quantic School of Business and Technology

What We Will Cover

01 The shape of the degree

02 What the curriculum covers

03 The five-month capstone

04 Who the program is built for

13

Months

Fully online, start to degree

MSSE

Quantic's online master's in software engineering.

01

The Program

The Degree by the Numbers

8

Concentrations

2

Specializations

1

Capstone

13

Months

How It Is Structured

01 Core

Eight required concentrations

02 Choose

Two of four specializations

03 Build

One capstone project

What the Curriculum Targets

Machine learning integration

AI software engineering

Cloud architecture

Microservices

Inside the Core

Machine Learning

Predictive models, decision trees

Cloud Architectures

Scalable cloud-based solutions

AI Engineering

LLM apps, fine-tuned models

How You Learn

Async

On your clock

Team

Agile peers

Applied

Real projects

The Arc of the Degree

Month 1	Month 6	Month 9	Month 13
Core opens	**Specialize**	**Capstone**	**Ship**
Eight tracks	Pick two tracks	Team forms	Public repo

What do you ship?

Five Months, One Artifact

01

Design

Scope the build

02

Develop

Write the code

03

Test

Prove it works

04

Deploy

Ship it live

Who It Is Built For

Recent graduates

Turning a degree into a role

No senior title required

Any technical background

Career shifters

Moving into engineering

Keeping a full-time job

Any technical background

"The capstone ends in a public repo."
