Our Position

One thing to remember

**Speed without trust is just
churn in a faster wrapper.**

Key Terms

Speaking the same language

Net Revenue Retention

The percentage of recurring revenue retained from existing customers over a period, including expansion and after churn.

A Question for the Room

Before we look at the data

**What would we build if we
trusted our customers
completely?**

Why It Matters

The case in five points

What Changed This Quarter

- Activation time dropped by half
- Support tickets fell sharply
- Expansion revenue outpaced new sales
- Two flagship accounts renewed early

Platform Highlights

What sets it apart

Built for Teams

- **Secure by default**
Encryption and audit trails on every action.
- **Fast to adopt**
Live in an afternoon, no migration needed.
- **Clear results**
Dashboards that show value in week one.

Launch Readiness

Where we stand

Go-Live Checklist

- Security review signed off
- Load testing completed
- Runbook published to the team
- Rollback plan rehearsed

How It Works

From sign-up to value

Three Steps to Onboard

1 Connect your data

Link a source in minutes with a guided wizard.

2 Pick a template

Start from a proven layout, then tailor it.

3 Share the result

Publish to your team and gather feedback fast.

Before & After

What the migration changed

Onboarding, Reworked

Before

- Manual account setup
- Three-day approval wait
- Email-only support

After

- One-click provisioning
- Same-day approval
- In-product live chat

Build vs Buy

Weighing the trade-offs

Building It In-House

Pros

- Full control of the roadmap
- No per-seat licensing
- Tailored to our workflow

Cons

- Months of lead time
- Ongoing maintenance burden
- Hiring specialised staff

Agents in AI

How software learned to act, not just answer

What Makes Software an Agent

Perceive

Read its environment.

Reason

Plan a course of action.

Act

Use tools to change things.
